LOUISVILLE, KENTUCKY: TUESDAY MORNING, MARCH 26, 1861.

VOLUME XVII.

## Daily Democrat.

TUESDAY MORNING, MARCH 26, 1861.

**It is now thought that the great powers of Europe will recognize the Confederate States as a government de facto, perhaps, not formally at present, but virtually. It is the shortest way to get rid of many perplexing questions that will start up in the business of commerce; nor can the United States consider it a cause of war.**

**Besides, the division, or disintegration of this Republic, relieves the powers of Europe of all apprehensions of an overshadowing power which, until now, seemed growing up on this Continent, with resources enough to dictate laws to all nations in case of difficulty. This will be a point gained of no little importance. Crowned heads can sleep more quietly, after the great Republic is divided; and their subjects, resisters under the rule of the few, will derive less courage to resist, after the great Republic is fallen into several parts.**

**The Southern tariff goes into operation on the first of April, and the Confederate States, for free trade in everything, will find that what free trade they had is now clung with dikes. The Mississippi, that bore down goods as free as its waters, is now to be watched by custom-house officers and agents to nose out and tax what has always been free. Hurrah for rights, and long live huzzah!**

**VANISHED.—It is a remarkable fact that the morning after the Confederates held their Convention, not one of them was to be found in Frankfort. They stayed over, and were not seen again until the next morning.**

**NO MINERS.—Dr. Wright tells us it was to stay at Frankfort, and never to have gone, in mystery.**

LOUISVILLE, KY.  
TUESDAY MORNING—MARCH 25, 1861.

For State Treasurer.

We are authorized to announce JAMES R. BARNES, of Barnes county for State Treasurer.

The Charleston Courier says that Major Anderson has had a conversation with Paymaster Hunt, and stated that he was in expectation of receiving by mail the orders for the evacuation of Fort Sumter, and hoped to get them that day. His supply of fuel and provisions was nearly exhausted, so much so that if not speedily relieved, the garrison would be compelled to burn some of the gun carriages for fuel.

Major Anderson expressed a preference for the Charleston and New York line of steamers, to a public vessel, for the embarkation of his troops, the former having better accommodations.

He stated that the fort would be given up to the South Carolina authorities, after an examination by the authorized officer and a ransom taken for the property.

We learn that our friends, O'Bannon, Kean & Co., have got the commission to do the mail service between the three cities of Jeffersonville, New Albany and Louisville.

Their appointment is as judicious a one as could be made.

They own an extensive line of omnibuses, and will do the work themselves.

No better security could be given that it will be well done.

**BARGES OF THE SUCCESSION OF VIRGINIA.**—Hon. George W. Summers, of Virginia, has telegraphed to the president from the Virginia Convention, urging an immediate call of an extra session of Congress and the adoption of conciliatory measures. A fair cause of the Convention shows that only three votes are wanting to pass the ordinance of secession.

It is thought here that the Union men in the Virginia Convention will follow the example of the Union men in Arkansas, and consent to have the ordinance of secession passed, with a clause submitting it to the people, for they believe it would never be adopted.

**BRASS—As the reader sits down to a repast of pork and beans does he ever think of the ancient belief attaching to the beans? Old Pilgrim says "beans contain the souls of the dead," and Pilgrims tell us that they were held in high esteem for invoking the Muse. When the ancients prepared a repast for the dead, beans formed the principal portion of it. The Romans used to throw beans into the altar fire to exorcise the ghosts of the dead, and to pacify them.**

**STEAMBOAT ROBERT.**—On the arrival of the Louisville mail boat at Cincinnati on Friday morning, one of the passengers, Mr. C. M. Bell, of Kentucky, stepped into the wash-room a few minutes, and when he returned he discovered that his wallet, which he had neglected to remove from under his pillow, had been removed. It contained a check on a New York bank for \$200, payable to Mr. Bell, and \$200 in broken bank money. The enquirer says the thief will realize nothing by the transaction, though the loss to Mr. Bell is considerable.

**LONG AND SHORT—A QUEER COUPLE.**—The Bristol (Eng.) Post says that one of the parish churches in that neighborhood was lately the scene of a gay wedding, which attracted no small degree of attention from the fact that the bride was a fine young lady, six feet two inches in height, while the happy bridegroom reigned in the altitude of three feet two inches—being one inch more than half the number measured by his fair helpmate. The words of Sheridan, in "The Duenna," were naturally recalled to mind by this incident:

"Spare each a pair was never seen."

The couple are still in the union.

Mr. and Mrs. John E. H. Regan, of Texas, now Postmaster General of the Confederate States, has written to Washington for his quota of Congressional books.

**At Least two sloops-of-war will be built at the Philadelphia Navy Yard.**

**The Bardstown Gazette, of March 21, contains the following highly complimentary notice:**

"W. G. Hite, Esq., formerly a candidate for City Attorney in the city of Louisville. We have known Mr. Hite ever since our childhood. If the people of Louisville will consult their interest they will elect him unanimously."

**How old is that girl?**

**PATENTS FOR DESIGNS.**—A mistaken idea prevails in regard to that section of the new patent law which provides for patenting new forms of articles of manufacture, patterns for castings, etc. The new law allows the patenting of nothing under this head which the law of 1842 did not, but it changes the condition in regard to the fees required, and the duration of such patents; and also specially provides for the extension of such patents, which was somewhat doubtfully expressed under the old law. It also dispenses with the models heretofore required. In fact, the new law omits one clause contained in the act of 1842, and the omission of patentable design.

**Mrs. H. G. Foster and James Flanagan were thrown from a buggy near the second toll gate, on the Paris pike, in Clark county, Ky., on Wednesday, and very badly, though not seriously, injured.**

**Who is that girl?**

**Mrs. Elizabeth F. Haines, formerly a teacher in the Blind Institution, was recently badly burned by her clothing taking fire, at Bath, Maine.**

**Mr. Gay, at Gay's China Palace, will sell gold or silver any old chandeliers or stand lamps, and warrants them as good as new, at very low prices. Be sure and leave anything you may have and want fixed over.**

## Special Notices.

**TRADE.**—Among the places worthy of the attention of the visitors to Louisville at the present time, is the great trunk manufactory and emporium of J. H. McCleary, on the northeast corner of Fourth and Main streets. His large manufactory enables him to supply trunks, boxes, barrels, and hat boxes, leather, bazaar trunks, etc., of the very best quality, at unprecedented low prices. All of Mr. McCleary's work is beautiful, as well as durable goods. Give him a call.

**SUPPLY-STORE OF MEN'S AND BOYS' CLOTHING.**—J. M. Armstrong, on Main, opposite the National Hotel, having returned from the Eastern cities, is now opening his elegant stock of reasonable clothing for men's youths' and children's wear, embracing all sizes and qualities for children from two years to the largest youths' size. Beautiful assortment of light cassimere suits. Also a handsome stock of cloths, cassimeres, vestings, for which orders are solicited. Prices very low for cash.

**FURNITURE AT COST FOR CASH.**—J. M. Smith & Co. are selling out their entire stock of furniture at cost, being desirous of making a change in business. They are offering inducements, at a great sacrifice, to housekeepers to replenish their houses. Call and look for yourselves, before buying elsewhere, at No. 208 Market street, between Second and Third. *dim*

**ORDERS for subscription to the Daily Democrat left at Geo. W. Barth's feed-store, northwest corner of Market and Twelfth streets, and at G. Zausinger's drug store, southeast corner of Jefferson and Shelly streets, will be promptly attended to by the carriers.**

**CHOICE PITTSBURG and POMEROY COAL.** We desire to say to all those who have a good article of Pittsburg and Pomeroy coal, that it can always be found at the depot of Capt. W. A. Porter, corner of Jefferson and Third streets. Those who would deal with a fair dealer and clever gentlemen, will do well to bear the above office in mind when they want good coal.

**"Search for and hold fast that which is good,"** is an old saying, and truly verified in Dr. McLean's Medicines—the celebrated Strengthening Cordial and Blood Purifier, and McLean's Volcanic Oil Liniment. There have never been remedies that have become so deservedly popular in so short a time as those; they can now be found in the closets of nearly every family in this city, ready for use whenever required, because they will act just as is stated in the directions. See the advertisement in another column.

**Ponce de Leon was believed, in credulous ages, to have found the "Water of Rejuvenescence"—but he found them not. It was reserved for an eminent man of our day to discover the component parts of WRIGHT'S REJUVENATING ELIXIR, which is no fable but a verity. It is purely vegetable in its origin, and the oldest practitioners are thunderstruck at the rapidity with which it removes the virus from the system, which is the common cause of dyspepsia, debility, depression of spirits, ennuie, and general prostration. Throughout the South, especially, it has triumphed over every thing in the pharmacopeias, and may be truly called the greatest of nature.**

Sold by all respectable druggists throughout the United States and Canada. J. WRIGHT & CO., sole proprietors, New Orleans, La. See advertisement. mrd/wm

**Dr. Schlebenberg's Fever and Ague Antidote** never fails to cure the most obstinate cases, when taken as directed. It cures immediately. In no case will the patient have more than one chill after taking the first dose, and in the majority of cases not even that.

It accomplishes the work by destroying the cause of disease, which no other remedy pretends to do.

It contains no arsenic or poisonous ingredients of any kind, and may be administered with perfect safety to an infant.

Mr. D. W. Spalding, New Orleans, La.

**HUME TESTIMONY.**—*Testimony, Et. Aug. 29.*

**Dr. C. W. Boer, New Orleans, La.** Dear Sir: For the past several months I have been laboring under great weakness and general debility, much of the time confined to my bed, and from which I received no benefit from my physician. After using some of your blood pills and blood purifier, purchased of your agent, Mr. Wm. H. Plummer, I feel as if a new person almost entirely free from disease, and would recommend your medicines to all who are in need of so invaluable remedies.

Yours truly, MARY T. HOWARD,

See advertisement in another column.

At a time when there is greater fear of the stock of dry lumber, ash, doors, blinds, &c., will fall short, owing to the vast amount of improvements in Louisville, it will be interesting to the public to know that Alexander, Ellis & Co., have enlarged their factory and have now on hand several million of dry lumber. Call at their office on Main street, nearly opposite the Galt House, or at their factory on Fulton, above Preston street.

J. N. Collins sells the best of coal at his office, Third street, between Market and Second. Give him your orders. *dim*

See advertisement of Dr. Sanford's LIVER INVIGORATOR, in another column.
